Why will you like and want to use Bokar-Tokoma Superior Screwdrivers?

Because they are the best screwdrivers ever produced. Developed by high precision Japanese Company and till 2007 sold exclusively in Japan. Used by many famous Electronic Equipment Manufacturers. Can not be copied because they are protected by many patents.

They are ergonomic and extremely well made. Precisely ground at patented angles to fit the screw slot or cross. All shafts and bits are straight which makes fastening the screws easier than ever. Aerobics arrangement of the screwdriver tip can be found only in Bokar-Tokoma tools. It is virtually impossible to describe in few words how much better these screwdrivers are than anything produced to date by others. Only if you use them (even ones for few minutes) you will understand their superiority.
